OK. FYI -Nereid is in either Pascrell or Rothman's district. Pat indicated you might be looking at Pallone's. Several good choices there as well.

Thanks Lisa. Nereid is a great recommendation - I'm looking into it this morning. Pat and I have been trying to work out Judith's availability, and we hope she can be available for 11:30 event. I'll keep you posted, and thanks again for facilitating!

Pat/Peter/Chris - could you send a list that differentiates between orphaned and PRP lead sites? Zoe - orphaned sites are paid for through the Fund, PRP sites generally have little or no \$ coming from Fund. therefore, best sites to illustrate need to renew tax would be orphaned. However, you can do events at PRP ones on this - the message is just a little more complex.  
FYI - several years ago, I organized this event for Lautenberg at the Neread (spelling?) Boat Club on the Passaic River (indoor venue). Event went well. you could revisit doing it. Passaic River is a 17 mile Superfund site.  
Also, let us know if this is an event you'd like to invite the Regional Administrator to. Since this is about proposed legislation, we'd need to check on her ability to attend. thanks.

Thanks Lisa. The Senator will be introducing the polluter pays bill, so the basic message is corporate responsibility, saving taxpayer dollars, and preserving NJ's environment for future generations. I know an indoor location for superfund is tall order, but this time of year it's difficult for the Senator to do outdoor events. Are any of our superfund sites redeveloped?

Hi Zoe. Adding our Congressional Affairs folks. They can forward you a list of sites in Pascrell's district and help make recommendations re: status, visuals, etc... I can also speak with you to help narrow down options. What is the message? Indoor options may be tough.

Lisa,  
Great meeting you yesterday – thanks so much for taking the time to chat with me! It was super useful, and I definitely look forward to the day of briefing in NYC.

On another note, I was hoping you might have a recommendation for a good indoor location for a superfund event, preferably in Pascrell's district. Perhaps a site that's been redeveloped, or an EPA regional office... I'm at a little bit of a loss. We're looking to do the event on 2/22, so any suggestions you have would be greatly appreciated.

Thanks again, and hopefully I'll see you soon!
